

First run the app, and click on Word of the Day, it will randomly select a word from lexicon, coming with the rating system. One can rate it according to familiarity, for example, 3.

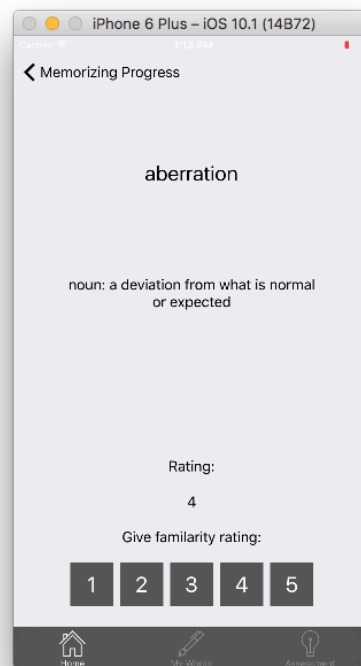

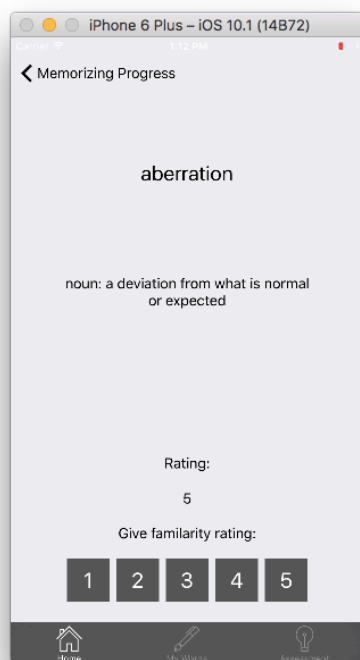

Now go to level C of My Words, one can view the word he/she just added.

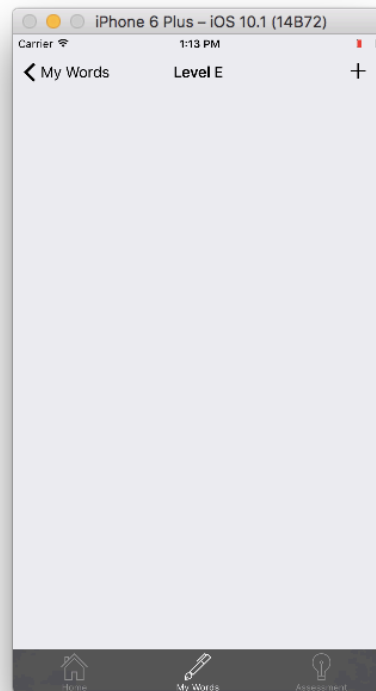

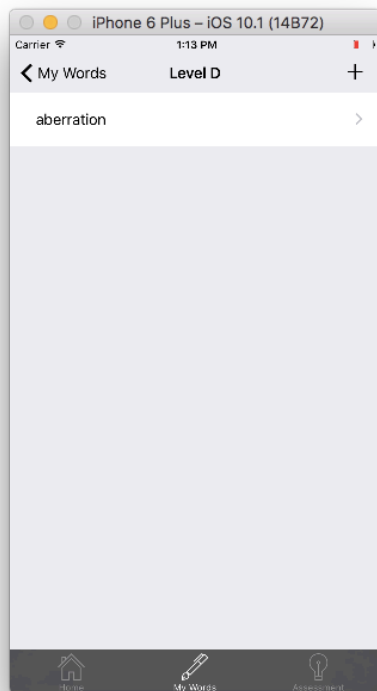

Go back to home page and click on Start Memorizing. This keeps track of how many words one has view. By clicking Start!, one can start viewing and rating words.

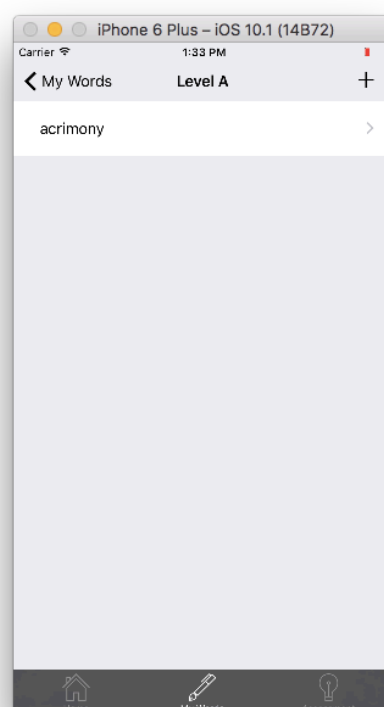

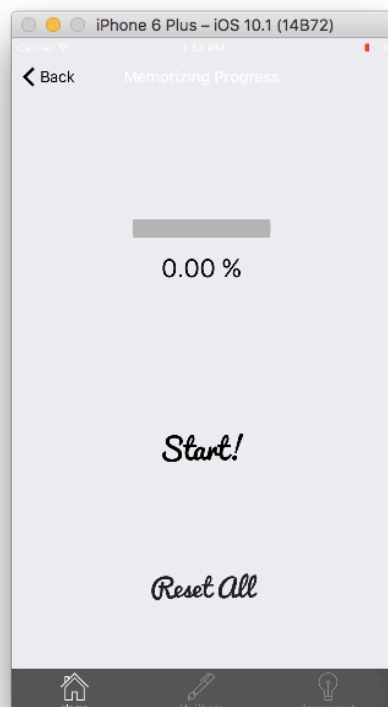

Also, once the user finished rating, and want to change the rating for, for example, the word “aberration”, from 5 to 4, he/she can freely do it.

Also, the word “aberration” will appear in Level D, and be deleted from Level E automatically.

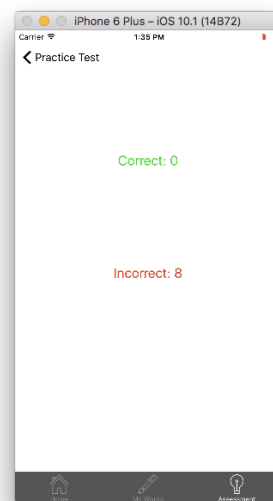

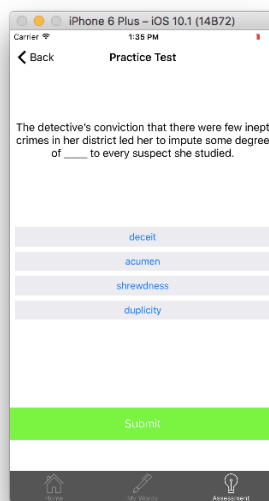

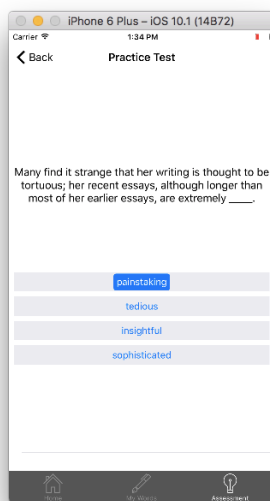

By clicking Reset All, the whole progress would be reset, but all words added to list will not be deleted.

No go to Assessment and do the practice questions.

After finishing, click Submit, it will tell you your score.

Thanks for watching!
