

greThesaurus User Feedback

Paul Lin:

Would be better if the question number did wrong could be shown, instead of merely the number of correct and incorrect answers.

Lisa:

Like the design a lot!

Yu Wang:

It would be better if the overall UI design could be consistent. The home page looks fascinated but when you click it, the contents should also look nicer.

Yutong Wang:

I like the lexicon because it is one of the most useful lexicons I've heard of for GRE. The functionalities are a little bit simple, but it is a small useful notebook for GRE vocab.
